

NATECH TRADE FINANCE DIGITAL PLATFORM

Brief description of the project:

The Natech Trade Finance platform enables banks to manage the full lifecycle of key trade finance instruments and handle cross-border transactions within a unified digital environment. The strategic functionalities developed in the project cover: end-to-end management of Letters of Guarantee (LGs), processing of Import/Export Letters of Credit (LCs), and integrated SWIFT messaging management.

- Can be embedded within any Core Banking platform
- Allows delivery through Cloud deployment models
- Supports cross-border interbank & customer payments in multiple currencies
- Supports integration with related banking & financing programs

Implementation Agency:
INFORMATION SOCIETY S.M.S.A.

Under the Development of Digital Products & Services Programme –Digital Transformation of SMEs

This project is carried out within the framework of the National Recovery and Resilience Plan Greece 2.0, funded by the European Union – NextGenerationEU
